

MIDDLE

Frontend Developer

# PABLO GARCÍA FUENTES

## Testing:

Jest, Cypress

## Tools:

Git, Github, Webpack, NPM, Yarn, PNPM

## Languages:

HTML, CSS, Tailwind CSS, JavaScript, TypeScript, PHP

## Frameworks:

React, Next.js, Astro, Symfony, NodeJs

## SUMMARY

Frontend Developer with 5+ years of experience building scalable, high-performance user interfaces. Specialized in React, Next.js, Astro, and Symfony, with strong expertise in component architecture, state management (Redux/Context), testing (Cypress), and performance optimization. Experienced in integrating REST APIs and working on end-to-end projects with multidisciplinary teams.

## PROFESSIONAL EXPERIENCE

MacMillan Studio

March 2025 – Present

Frontend Developer

Development of scalable and responsive web applications using Astro, VueJS, and TypeScript.

I collaborated with UX/UI designers to implement intuitive and attractive user interfaces.

Hiniestic S.L.

August 2020 – March 2025

Frontend Developer

Development of web applications with React and Symfony applying clean architecture.

Frontend development with React (hooks, Redux, Redux-Saga), E2E testing with Cypress, and reusable component architecture. Integration of REST APIs (Node.js, Symfony), collaborative work with agile methodologies (Scrum, Jira/Bitbucket).
